

The ACTIV8 Compensation Plan

With ARIIX's ACTIV8 Compensation Plan, you can unleash your Strong Finances, as well as your full potential.

ARIIX ACTIV8 is the industry's first multiline compensation plan—that's what makes it so unique.

The network marketing industry generally uses three types of commission structures:

Unilevel

Gives a person the ability to build and earn on infinite width.

Binary

Gives a person the ability to build and earn on infinite depth.

Matrix

Restricts a person from building and earning on width and depth.

The ARIIX Multiline

PATENT-PENDING

Dr. Fred Cooper has unlocked the secret that allows a person to earn and build with unlimited width and depth, thus providing the ability to unleash your Strong Finances infinitely.

UNLIMITED WIDTH—UNLIMITED DEPTH
UNLIMITED INCOME

50% PAYOUT

Many companies claim to compensate at a 50% payout. ACTIV8 is truly the only compensation plan known in the industry that actually pays out \$.50 on every dollar, making it the highest paying commission structure available.

Auto-Balancing

PATENT-PENDING

Never worry about how or where your personal points or customer's points are placed within your organisation in order to maximise your profits.

With the patent-pending auto-balancing algorithm, we ensure that every point generated by you and your customers is placed perfectly and automatically so that your profitability is maximized to its fullest.

Cost of Living Increase

We understand the principles of inflation and cost of living increases. In order to accommodate and account for these, we have introduced the cost of living increase algorithm.

As the years go by and based upon where you live, your commissions will increase accordingly, therefore keeping you inflation and cost of living proof.

Power Re-Entry

PATENT-PENDING

Imagine being able to enrol under one person in an organisation and then again in a completely separate team. With the patent-pending Power Re-Entry, you can do just that. This gives you the ability to work and promote cross-line support with everyone being rewarded financially. Welcome to true team building where everyone wins!
