

NUTRIFII™

LOOK GOOD AND
FEEL GOOD FROM
THE INSIDE OUT.

Every day it seems harder to stay healthy, and we are bombarded with stress from every direction. Stress from your kids being late to school, or the many hours of work per day, or even just the rush of everyday life. But it's not too late!

Part of the Nutrifii™ product line – a premium collection of bioavailable supplements designed to Restore, Fortify and Boost – Vináli™ contains a robust combination of powerhouse sources of vitamin C that support whole-body wellness and provide a boost to the immune system.

SKIN BENEFITS

Vinali's synergistic blend of bioflavonoids, vitamin C and grape seed extract work to promote normal immune system health, protection of cells from oxidative stress, and helps towards normal collagen formation for standard skin function and a more luminous complexion.

More luminous? Who doesn't want that?

GET YOUR VITAMIN C

Vitamin C is an essential nutrient, but because it's water soluble, it is easily washed from the body. The vitamin C found naturally in our food is easily destroyed in the cooking process, and studies have shown that people under severe stress, smokers, and those taking oral contraceptives require higher levels of Vitamin C. Vinali's high-quality blend of Vitamin C includes calcium ascorbate, zinc ascorbate and magnesium ascorbate.

TURN THE TABLES ON TIME

Time takes a toll on our bodies, but we don't have to accept the effects! Vinóli's comprehensive blend has what you are looking for, offering the very best Vitamin C sources to help you look and feel your best. Soon people will start to take notice and say, "I want what you're having"!

THE TRIFECTA OF AGE-DEFYING NUTRITION

Vitamin C

- Assists in the formation of normal collagen, for normal function of blood vessels, bones, cartilage, skin, gums and teeth
- Contributes to the reduction of tiredness and fatigue
- Helps increase iron absorption and towards the normal function of the immune system

Acerola Cherry

- Helps achieve a normal energy-yielding metabolism
- Contributes to a normal psychological function
- Aids in the protection of cells from oxidative stress

Grape Seed

- Many scientific studies show Grape Seed is an ingredient high in antioxidants and the benefits that come with it

Look good *and* feel good from the inside, out.
